Completed an associate of science at Panola College before enrolling in the University of Texas full-stack web developer coding bootcamp online, which is a fast-paced, collaborative, challenging environment. I have learned problem-solving skills as with creativity and teamwork, I have a passion for building ideas into full scale apps with beautiful design and thought-out execution.

Skills

- HTML, CSS, JavaScript
- MySQL, MongoDB, GraphQL
- Node.js, Express.js, React.js, jQuery
- BootStrap, Bulma
- AJAX, JSON
- GIT

Projects

MERN STACK

Eridium

Full MERN Stack web application, users can create accounts, channels, servers. Chatting live through the personalized servers with other members of that server.

GitHub Repo: <https://github.com/andwilson36/eridium>

FULL-STACK

Long Rides

Users can see affordable rides around the UT at Austin campus and city. Users can become a driver and post their own rides with several details.

GitHub Repo: https://github.com/andwilson36/Long_Rides_project_two

FRONT-END

Ticket

A great place to find flights and hotels for the best prices. Users can sort the results to find the perfect trip.

GitHub Repo: https://github.com/andwilson36/Ticket_Project_One

Education
